POLITICAL ANTAGONISM.

Political animosity blinds the judgment of many able men, and indeed it is not uncommon, although it is a pitiable exhibition of mental weakness, to witness the narrow-minded policy pursued and the insipid sophistry resorted to in order to convince the reading public of the utter mediocrity of the men at the head of affairs. We need not indulge in criticism of a certain spurious opposition that shrinks not from plunging into the mire of personal abuse: this repulsive propaganda happily meets with no support, and is only rampant when unbridled envy or passion tears off the mask and the thin, superficial coating of refinement that hide the repulsive features beneath. Too much encomium cannot be lavished on the improved tone of argumentation at present prevailing in the political arena, but one cannot help smiling at the desperate efforts to daub the present picture of the country's prosperity and to erase the names of those who may with legitimate pride append their signature to a masterpiece, entirely of their own conception and colored by their soaring abilities. Everything may be fair in love and war, but this systematic opposition and wilful ignorance of merit begin to tire the public. The extension of the Great Southern Railway to Bahia Blanca—this monument of the Rocha Government—has been seized upon with political avidity to start the extraordinary theory that all these railway extensions have been made by the province to the total exclusion of its Government; such mental aberration and feminine spite can scarcely be accounted for, unless brain moorings are giving way under the pressure of jealousy, envy, or dislike, to use the most mellifluous terms.

Everybody with his wits about him must see through this kaleidescope of sophistry, through this tissue of systematic misrepresentation, which not only detects flaws and ignores merits, but actually stoops to infatuation and endeavours to give shape to hallucinations of Cumæan frenzy. Facts are facts and steel rails can well resist the battering ram of political opposition. The late Provincial Government can lay claim to full honors for the extension of railways to the South, North and West. Opponents may ascribe the great material prosperity of the country to its immense vitality, which has resisted expensive foreign wars and reckless revolutions, wretched mis-government, and commercial crises, but the Public Works of the country, whether directly or indirectly carried out by the Government, must and will remain the monuments of the respective governments. Whatever error the authorities may have committed, they are all redeemed by the immense expansion given to the country by the many Public Works carried out or in course of construction. It is idle to deny the fact, and the infatuation that will not see it is worthy of more pity than criticism. The great trunk lines over the plains mark epochs in the history of the country; the Central Argentine was a great starting point; it remains a lasting monument to the Government that fostered its construction; the impetus given then continues now and will no doubt increase with each successive change of government. Distances and scarcity of water are the drawbacks of the country: railways, roads, and canals are the great necessities of the nation, and unless these are made and pushed ahead, the advance of the country, the immense wealth of the interior, and we may say the organization of the nation must necessarily be delayed or remain stationary.

NEW LAND COMPANIES.

One of the most remarkable features of the London Money Market is the rapid development of joint stock land companies. Almost each mail brings us advices of one or more new land companies having been started; and what deserves especial notice is the high respectability of the parties whose names figure as their promoters. Peers of the realm, retired merchants, capitalists and large landed proprietors. These form the principal shareholders, which suggests the idea that the great families in the United Kingdom are making provision for the younger members in foreign lands and in cattle.

Twenty years ago these land companies were, comparatively speaking, unknown, and we remind our readers that to start the Central Argentine Land Company Mr. Wheelwright, his partner and their immediate circle of friends had to take over the entire stock of the so-called company, whose shares to-day are at such a magnificent premium, and held throughout England by people in every walk of life.

The South American Land Company, started in 1881, by Mr. E. Casey, has proved one of the most successful ventures ever made by British capitalists in the Plate, and with the immense area of prime arable and pasture land we possess, and the infinitessimally low prices, compared with those of Australia and New Zealand, it does seem wonderful that more Argentine land companies are not started in London, where the Plate has scattered such millions of profits amongst those who trusted and believed in this country.

Millions of pounds sterling are finding their way out to Australia, Texas and New Zealand. Strange that in such a tide so little finds its way to the Plate. The explanation seems to be, that those who are engaged in our investments, &c., find the business so profitable that they try, as far as possible, to keep the Plate a close borough. Mr. Peters, a London gentleman of great travel and experience, told us that one of the most powerful Boards in London is the North Western, and that there is not a man on that Board who knows whether Buenos Aires is in the Brazils or not, his impression being that most of the Board believed all these countries formed a part of the Brazils.

We accept it, however, as a good sign for the Plate the rapid growth of these land companies and estancia companies in London. They will soon stretch out to the Plate, which offers a field for investment ten thousand times better than Texas or New Zealand. We must bide our time—the tide will yet turn, and then the magnificent resources of the Plate will become more familiar to the landowners and capitalists of Europe.

The mail has brought us the following particulars about some new land companies recently started; we commend them to the close attention of those who hold lands in this country, as indicative of what can be done out here in that line, when the tide flows unbroken to our shores:—

"We have received the prospectus of the Land and Loan Company of New Zealand (Limited.) The capital is £1,000,000, in 200,000 shares of £5 each, and the first issue consists of 100,000 shares upon which only £1 per share will, for the present, be called up. We are informed that the directors and their friends will take 44,000 shares. The class of properties proposed to be purchased are those only partially improved and stocked. With care and attention the rough ground can, it is urged, quickly be brought into cultivation and sown down with English grasses, thus greatly increasing the carrying capacity of the land and its value. Town reserves will be made upon such properties as may be acquired, suitable for the purpose, and portions of the estate laid off in agricultural blocks of limited area for sale or lease to intending purchasers.

THE CONSOLIDATED LAND AND CATTLE COMPANY, LIMITED.

Capital £750,000, in 150,000 shares of £5 each.

Of which 20,000 fully paid shares are taken by the vendors as part of the purchase money.

PROSPECTUS.

This Company is formed to purchase and consolidate the well-known Wiren, Hittson, Millsap, and Milliken, Mann, Jackson, and Elken Cattle Herds and Ranches, consisting of 100,000 acres of freehold lands, 75,500 head of branded cattle, and the calf crop of 1884, estimated to number 20,000 to 25,000 head, also 1,000 horses, 2,000 hogs, ranch implements, equipage, improvements, etc, all in the State of Texas, U.S.A., and to carry on the business of raising cattle and other live stock in the United States of America. The directors have obtained the option to acquire all or any of the said ranches as they may see fit.

The object of transferring the herds to a single Company is to lessen the proportionate expenses, extend the improvements, and develop the herds, which combined will form one of the largest, as they are already well known to be among the best graded, herds of any magnitude in the United States.

The business of cattle raising in the Western States of America is now acknowledged to be highly remunerative. Numerous companies have lately been formed for carrying it on, and are working very successfully. The following figures will show the last dividends paid by ranch companies formed during the last few years, and as this class of investment is rapidly growing in public favour shares are likely to advance very considerably in value.

	Per Cent
Arkansas Land and Cattle Company	10
Matador Land and Cattle Company..	8
Missouri Land and Cattle Company..	10
Powder River Cattle Company......	10
Prairie Cattle Company............	20½
Swan Company......................	9
Texas Land and Cattle Company..	12½
Western Land and Cattle Company	15

The ranches proposed to be acquired by this Company are admirably adapted for consolidating into one large property, because they 'dovetail' into each other, there being no other herds or ranches between them. They occupy both sides of the Double Mountain Forks of the Brazos River for a distance of about 60 miles; and both sides of the Salt Fork of the Brazos River for 30 miles; and as one of the best means of securing the water privileges, 100,000 acres of freehold land have been selected in good positions, thus practically insuring the future possession of the range, which is about 3,000 square miles of the finest grazing lands in the States, and estimated to be capable of maintaining easily 120,000 head of cattle. The freehold of the remainder of the range can be either leased or purchased at a moderate price should the Company desire to do so later on, the expediency of which the Directors will take into their consideration, and it should be noted that no payment will be made to the vendors in respect of any range rights.

It should be pointed out that in addition to the water from the rivers named, there are numerous creeks and well-watered streams scattered over the entire range, and at no season of the year will the cattle require to travel any great distance to find an abundance of good water; in fact, the moderate climate, the excellence of the grazing land and abundance of water and shelter at all seasons, combine to make these ranches one of the most valuable pastoral properties in the States, and when consolidated under one management will give still more important results.

The position of the ranches with regard to markets is excellent. They are within forty miles of Colorado City, on the Texas Pacific Railway, which line has in the last few years opened up such facilities as to enormously increase the demand for stock of all kinds from this district.

The ranch houses are situate at suitable distances all over the range, and are provided with the necessary enclosed pastures, yards, branding pens, waggons, harness, and all other camp outfit, to make them in every sense complete.

The purchase money is made up as follows:—

74,500 stock cattle at $25 per head	$1,862,500
100,000 acres of land, free of all incumbrance, and to which warranty deed will be given at $2.50 per acre...........	250,000
500 first-class stock horses including several thoroughbred stallions, at $40 per head........	20,000
500 saddle horses, at $40 per head	20,000
2,000 stock hogs, at $4.00 per head	8,000
1,000 selected and improved bulls, at $62.50 each	62,500
Range improvements, including houses, fences, camp equipments, furniture, cooking utensils, waggons, etc.......	9,500
Total valuation of property....	$2,232,500

This at $4.85c per £, is equal to £460,309.

Should the directors exercise the option to acquire only one or more of the ranches the purchase-money will be reduced proportionally to the extent of land and quantity of cattle conveyed and taken over, and in that event the amount payable to the vendors in fully-paid shares will also be proportionally reduced.

The calf crop for the present year, estimated to number between 20,000 and 25,000 head, will, according to the terms of purchase, be the property of the Company without any payment being made for them, thus increasing the number of the herd to about 100,000 head, and reducing the average cost to about 18.75 dols. per head; and it may be mentioned that in the herd there are about 10,000 beeves, which will be ready for market this autumn, which, if sold for 35 dols. per head, would be 10 dols. per head more than is being paid for them.

The information given in this prospectus is taken from the reports, made from personal inspection, of Robert Bruce, Esq., of Great Smeaton, Northallerton, a gentleman of considerable practical experience in valuing live stock in England, Scotland and America, and familiar with ranching business generally; John McCulloch, Esq, of Glenhead House, Stranraer, who is one of the highest authorities on ranche matters in Great Britain (who has joined the board); and Hugh A. Ferguson, Esq., of 36, Welbeck-street, London, a gentleman with great experience in cattle and other live stock. The special attention of investors is called to these reports, copies of which acompany the prospectus.

Mr Robert Bruce writes:—

"Under proper management, I have not the slightest doubt but that the purchase of the stock and property on the above-mentioned six ranches, at the figures named to me, must be a good investment, and that a handsome percentage on capital invested may be paid year by year, while at the end of a few years the stock will be increased in number and value at a compound ratio. This increase of stock will be better understood when I state that it can be proved that in this district of Texas over 80 per cent of the cows will bring calves to the branding-pens year by year."

Mr Ferguson states:—

"Finally, I consider that the cattle are, on the whole, a very good lot. The range is ample, and the condition the cattle are in at present denotes that feed is abundant. I think there is no doubt that water is plentiful all the year round. The crop of steers for next year will be a large one, and I consider the whole property to be worth the price asked for it. Under good management it should pay good dividends, and, as it is a going concern, no great amount of money should be spent in improvements."

Mr McCullock says:—

"Taking this range as a breeding one pure and simple, and selling yearlings at present prices, 18 dols. to 22 dols. a head, the dividend would be 20 per cent., but as beef will more likely hold or advance on present prices than range cattle, I could not counsel the change unless with a provision for fattening the steers, a precaution worthy the consideration of the directors of any cattle company devoted entirely to breeding."

One noticeable fact in the reports is that they were made at different times, by parties entire strangers to each other, and while they never met or consulted with one another, yet their reports agree in the main and differ but little from the description and facts given by the vendors. Copies of these reports, in full, together with map of the range, may be had on application at the offices of the Company.

The only contract entered into is the following, viz., one dated the 22nd of March, 1884, made between the Texas Investment Company (Limited) of the first part, George Barnett Loving of the second part and Frederick Charles Pocklington, as trustee on behalf of this Company, of the third part, for the sale and purchase of the before mentioned ranches, stock and improvements at the sum of $2,232,500, equal to £460,309 sterling.

DONGOLA.

We see by the telegrams that the Mahdi is marching on Dongola, an important city on the Nile, and we believe the following particulars concerning this town will be read with interest:—

Dongola, or Dankala, is a town situated on the Nile, and capital of a district of Nubia. It stands on the declivity of a dry, arenaceous hill, and the streets are almost choked with sand, brought down from the mountains behind by the floods. The houses are low and ill built.

In the middle of the town there is a castle, which is very capacious as well as very badly fortified. There are in this district two other important towns besides Dongola, and these are Debbah and Korti. The province of Dongola, of which the town of the name is the capital, was, until the 14th century, a Christian country, was ravaged and subdued by the Sheygia Arabs in the 18th century, and is now subject to the Pasha of Egypt, and governed by a Bey, who resides in the capital. The inhabitants are blacks, but not negroes, and resemble the people of Lower Nubia.

The horses of Dangola are highly prized—they are remarkably beautiful, and their riders are very skilful. The Shagie Arabs are very skilful in the art of riding. On their small wooden saddles there is only allowed a place for the drinking vessel. When on horseback they do not ride by hold, but by balance, and in the most rapid pace of their horses, they will coolly pick up a stone, or any other small object, from the earth, without losing their balance or checking their horses.

Dongola was stormed by a party of Mamelukes, who escaped from the general massere, by Mehemet Ali, and they held the place for many years with 6,000 slaves.

At the recent Fencing Tournament in Paris, the Italians carried everything before them. No other nation could hold a candle to them.

The Amazone's Mails.

PRIMROSE DAY.

The display of primroses in London to-day, the third anniversary of the death of Lord Beaconsfield, is most abundant, the flowers being generally worn by women as well as men, while of many vehicles the horses are gaily bedecked, the drivers displaying bunches of primroses in their hats, button-holes, or surmounting the handles of their whips. The demand for primroses, particularly at the railway stations and in the City, more especially at the Stock Exchange, is very great, and to meet it enormous quantities of the flowers have been sent to London. The statue of Lord Beaconsfield opposite the Houses of Parliament was decorated with wreaths of primroses, laurel, and ivy; and primrose-wreaths from all parts of the country were placed at the foot of the statue, one of them being inscribed "From Tipperary." Many establishments are decorated, and altogether a most pleasant impression is produced. The Camberwell, Peckham, and Dulwich Conservative Club is profusely bedecked. A handsome garland of primroses, presented by the chairman, is suspended from the flag-post, and beneath the Union Jack is displayed. A large gathering of members and friends is expected this evening, when Lord Stopford and Mr. Ernest Baggallay, the Conservative candidates for Lambeth, will make their first visit to the club. A noticeable feature in the London streets is the sale of memorial cards. These, which have been issued by several publishers and by the Primrose League, generally bear a portrait of Lord Beaconsfield, surmounted by a wreath of primroses.

Telegrams from the provinces show that the day is being observed in a similar manner throughout the country. At Windsor the display of primroses is most lavish. At the White Hart Hotel, a well-known place of Conservative meeting, the decorations are very elaborate, and an *in memoriam* primrose device is erected in the centre of the house. In Chester primroses are almost universally worn, and the cabmen have decorated their horses' heads with the flowers, and wear bunches in their button-holes.

THE DYNAMITERS.

John Daly, who was arrested on the morning of Good Friday by the Royal Irish Constabulary, was brought up at the Liverpool Police Court this morning, on remand, on a charge of having in his possession an infernal machine with intent to commit a felony. Head Constable Humphreys, of the Royal Irish Constabulary, said that he had to apply for another remand; as the Home Office authorities had not completed the examination of the parcels found upon the prisoner. Mr. Quelch, the prisoner's solicitor, said that he had no objection to offer. Daly was accordingly remanded for another week.

At Birmingham to-day John Francis Egan was brought up on remand charged with feloniously conspiring with Daly, the man arrested at Liverpool, to endanger life and property. The chief of police, Mr. Farndale, applied for a remand stating that the case would then be gone into. The result of the investigation, so far as it had proceeded, thoroughly justified the proceeding which had been taken. Mr. O'Connor, solicitor for the prisoner, strongly opposed a further remand unless bail was allowed. The chief of police objected to bail, and the prisoner was remanded till next Saturday. The accused was afterwards taken to the Borough Goal, guarded by police with loaded revolvers.

The Paris *Gaulois* to-day states that the Prefecture of Police is carefully watching the attitude of the Irishmen suspected of being connected with the London dynamiters, and is disposed to recommend their expulsion if their proceedings should become too suspicious. The man who recently carried on a secret trade in dynamite at a house in the Avenue del 'Opéra has left Paris. The Government state that owing to the precautions adopted by the police the transmission of dynamite is impossible except in infinitessimal quantities.

IRELAND.

The Irish Catholic priests are heartily promoting the experiment of migration undertaken by the Irish Land Purchase and Settlement Company. All the priests in the diocese of Galway have purchased ten shares each, and each curate will purchase five. It is expected that this will be done in most of the dioceses in Ireland.

At a meeting of the Dublin Corporation, on Saturday, it was resolved that the Lord Mayor and those members of the Council who wished should attend the ceremony of the presentation of the freedom of Drogheda to Mr. Parnell on Tuesday. A resolution to this effect was moved by Mr. Clancy, who opposed the vote of condolence to the Queen on the death of Prince Leopold.

A farmer named Cuff, and his wife, were on Sunday night burned to death at Kilbeg, a village within half a mile of Claremorris, through their house taking fire. The affair is attributed to wilful outrage. The police are investigating the circumstances.

Mr. Dawson, M.P., and Mr. Michael Davitt arrived at Limerick on Monday from Dublin. They were met by a Reception Committee organised by the Irish National League, contingents of whom attended from districts in Tipperary and Clare, with bands and banners. They drove to the Town Hall accompanied by the Mayor and Corporation, the High Sheriff, and a number of clergy. The Mayor presented both gentlemen with the freedom of the city, which they acknowledged in suitable terms. A procession was then formed to O'Donnell's Place, where a large meeting was held in support of the national independence of the policy of Mr. Parnell and his followers.

A gentleman named North was walking with his wife and children, the latter being in charge of a nurse girl named Burke, along the banks of the river Liffey, Dublin, at a spot known as the Salmon Leap, when he suddenly tripped and fell in, being carried into deep water by the current. Although a number of well-dressed men saw the accident, they made no effort to rescue him, but the nurse girl gallantly plunged in, and at mid-stream succeeded in dragging her master into shallow water, thus saving his life.

A riot took place on Monday at Coalisland, which might have resulted in serious loss of life. The Bush Conservative flute band was returning from Streamstown that way at five o'clock. They were accompanied from the station by the Coalisland Lodge and their drums. They were met by the Coalisland Nationalist brass band and the Old Engine Flute Band, with a party numbering about seven hundred. Just beyond the Orange Hall the Nationalists attacked them, and a general riot ensued which lasted for fully an hour. During the stone throwing one of the Protestant party ran for refuge into the house of Mr. Rober tP. Lytle, and the crowd pursued him, and one of the party threw a stone into the house which struck Mrs. Lytle in the mouth and knocked out a number of her front teeth. They also broke some of the windows. During all this time there were only two policemen in the town. They went and got their rifles—the orderly also coming out. Mr. Stevenson, J.P., was on the scene, and did all he could to get the Protestant party away. So serious did it appear now that Constable Skelly telegraphed to Dungannon, and District Inspector M'Govern and Constables Acheson, Raphael, and Wamsley left on a car. When they arrived, the Bush band and the drums had gone in the direction of New Mills. The Coalisland drums came back to get into the hall, which is on the Dungannon side of the town, and the Nationalists gathered further down and yelled and cheered in a most furious manner. Mr. M'Govern placed the police across the road and ordered the men to fix bayonets. They then told them that they would not get into the hall. Mr. Stevenson and some other gentlemen urged them to go back, which they did. The police then went back into the town, and the Nationalist party retreated. The Old Engine band were going home, as they had to go along the road the Protestant party went by, and some more extra police were sent for to guard them home, but it was agreed by the authorities that it would not be safe to let them go home for some time. The town presented a very excited appearance, and it is believed very large numbers are wounded on both sides. The authorities are blamed for leaving the town short of three men. Two were in Armagh. At the time of wiring all is quiet. The police are parading the streets with their rifles, waiting to guard the band home.—*Dublin Express.*

When Mr. Parnell was proceeding to Kildare on Tuesday, a subpœna was served upon him in the train directing him to attend personally at the hearing of the action brought by him against a tenant to recover possession of a holding. Up to Tuesday morning it was found impossible to serve Mr. Parnell within the jurisdiction, and his cross-examination is looked forward to with much interest.

Mr. Parnell, presiding at a meeting of the National League in Dublin on Wednesday, said the success of the organisation was evidenced by the flow of funds and the number of branches established. Despite the difficulties it had had to encounter, the National League would hand down to history as bright a record as the Land League. Referring to the labourers' question, he said a more equitable system would be to charge tenants merely with interest, and the ratepayers with the payment by instalments of the principal. A servant girl named Mary Galway, in the employment of District Inspector Harrison, at Rathkeale, county Limerick, was accidentally shot dead on Tuesday by the discharge of a pistol which she was incautiously handling when cleaning up a room.

A Dungannon correspondent telegraphs that deliberate attempt was made late on Monday night to shoot a Catholic party of five persons who were driving through Dungannon. At the turn of the road, just beside the entrance gate of the residence of Mr. A. Dickson, M.P., four men emerged from the hedge, went over to the car, stooped down and looked into the faces of the occupants, and then, as soon as the operation of "Make ready: present: fire" could be gone through, balls whizzed past the terrified group of five who sat on the vehicle. The car was only about a perch from them when the first shot was fired. It had not gone another perch when a second shot followed. Those fired upon had a miraculous escape.

WANTED, AN EVERY-DAY HERO.

We received the following yesterday from a fair English subscriber, with request to publish; and as ladies' requests have always been commands for the *Standard*, here it is:—

I have always wanted a hero, to organise myself by, ever since I can remember.

I have known some hundreds of ordinary, hum-drum, respectable people like myself, but they do not count. My idea has always been, that somewhere in this world, there must be somebody who is splendidly intellectual and equally good; with all the pretty social virtues and graces thrown in as a 'llapa.' But I have never found him or her. Sometimes I thought I had.

What a joy it would be to find a woman who didn't believe the universe revolved round her family, her church and her doctor; a woman who had a kindly word for everybody, and was not afraid to believe even in Darwin. I have heard people utter sentiments as noble as Socrates, in voices so softly musical, it would have charmed that ugly little philosopher into dead silence; while I have seen them do deeds of petty meanness a crossing-sweeper would be ashamed of.

If I meet anyone who seems to me exceptionally bright and agreeable, with a generous soul, a dancing eye and a merry laugh, enough to charm the demon of care himself away, no sooner do I begin to like that person, and miss her when she stays away, than up bobs Mrs. Grundy, and, laying her skinny claw upon my shoulder, whispers; "Be careful; you had better not know Mrs. Cheerful, she does not keep the proper number of servants, as you do, or have her washing done on Mondays; she laughs too often at nothing, speaks above her breath, in short, is not at all in your set, and has done, Heaven knows what besides." "These are the people I command you to like," says Mrs. G., "a lot of strait-laced noodles, with no more flash or warmth about them than a clay model." "The cup was gold, the draught was mud."

Now, I should like to know, why in nine cases out of ten, the people you would like to like are the very people you ought not to like at all; while the people Mrs. Grundy admires, and says you are bound to esteem, are mostly dull narrow souls, with nothing likeable about them. In short, nothing in the least heroic. I wonder if it would be possible for a person possessing social and intellectual graces to have at the same time a feeling of good-will and charity for others not so gifted? One in whose nature no petty meanness or envy stands in the way of his perfect success as a hero. Why should nice people nearly always be naughty, and not do things as we ineffably stupid good people do? I am beginning to think that even the dead heroes were a sham; they seem such a long way off, while the living ones are so shadowed by the pointed finger of Mrs Grundy we cannot see them every day.

It reminds one of the negro preacher discoursing on Achilles:—"My brethren, we have all got a weak spot. Yours is in one place, mine in another; bet we've all got 'em. Achilles's heel was his, and at last he was shot there and killed. My brethren, we've all got a heel, somewhere."

I should hope so, at least. We would all be geese if we hadn't. Ah! no. I find that heroes, or rather infinite perfection, is not to be had for love or money, in this place. If by chance you should hear of one warranted to work well in a small family, we shall be grateful, as we are anxiously waiting to arrange ourselves after some heroic pattern, so as to suit everybody.

I am afraid, however, in a community like this, it will be like looking for the needle in the haystack, and the end of the chapter is more likely to read—"Wanted, perfection."

F. O.

EDITOR'S TABLE.

Oh! It was announced yesterday that the "Fiestas Mayas" are to be of the same "solo-caballo" pattern as usual. This took everybody by surprise, as great "novedades" were expected. The only novelty, however, will be the Electric Light.

The weather, the newspapers, everything was dullish yesterday, except the Bolsa, where National Bank Shares and Scrip kept the bulls, bears, stags, lame-ducks, etc, etc, as busy as bees. The Amazon's mails were not delivered until very late. There is nothing of great interest.

Messrs. M. Nothmann & Co. kindly sent us yesterday samples of pure coffee from the famous Papagaio factory in Rio Janeiro. Mr. Puiggari, the City Chemist, has analysed this coffee and reports it as pure as coffee can be. In making it, it must be passed through the boiling water *twice.*

The fair sisters Mesdlles Giulia and Sofia Ravogli were kind enough to send us their cards yesterday. In spite of Ferrari's monstrously high prices, which editors cannot well afford, we promise ourself the pleasure of hearing them sing.

Advices from Bahia say that a contract has been made to raise the hull of the wrecked steamer Reliance, for $70,000.

A lady subscriber has sent us a very funny slip from a New York paper, in reference to Governor Crittenden of Missouri having publicly kissed (in a paternal way) Madame Adelina Patti, and what Mrs C. subsequently said and did in the matter. We will try and find space for it some day soon, as it is a caution to Governors.

To all mankind death is but a question of time; with women, however, the length of life is mainly a question of veracity.

La Plata cannot do without Buenos Aires. On Thursday the Provincial Legislature had a proposal before it to unite the two cities by telephone.

Cards to view the May Feasts from the balcony of the Intendencia were sent round yesterday by the Lord Mayor. President Roca will hold a reception in the Government Palace. The fireworks will be confined to one night, the 25th, and will be grander than usual: The "pieces de resistance" will be two quadrangular castles that can be seen, when in a blaze, from all sides. The 'Consejo Deliberante' will have a high tea and muffins for their own circle in the Colon saloons.

The Mount papers, as usual, are blubbering over the coming fate of the two murderers Santana and Correa, ordered to be shot at Paysandu for butchering a whole family. Santana showed no emotion when the death sentence was communicated to him, but Correa displayed the white feather to a pitiable degree. The usual articles about civilization, humanity, and the abolition of capital punishment fill the paper, but we cannot see a line about the victims or their surviving friends.

English owners hold in the United States an area of land as large as Ireland. We are working towards the same state of things here.

We had the pleasure of a call from Mr. Mert Clark, the celebrated fire-eater of the American Circus, at the Politeama. He presented us with half-a-dozen copies of the "Rey del Fuego" galop, dedicated to him, together with a cabinet-sized photograph of his noble self. He informs us that Pluto is alive and kicking, and sends us all sorts of kind wishes. He begs us to state that the temperature is most genial in this part of the world. He pities us, poor "devils," shivering up here above.

Madame Vere de Vere, the second soprano of Ferrari's company, is an Englishwoman. We bid her exactly one hundred thousand welcomes to the River Plate, and hope she will enjoy her stay here.

The young lady who made 700 words out of "conservatory;" has run away from home. Her mother wanted her to make three loaves of bread out of "flour."

Dr. Finlay, of Havannah, says that yellow fever can be propagated by mosquitoes. If one of these insects bite a yellow fever patient and then fly to and bite a healthy person, the thing is done. It is significant that the mosquito, to live, requires the same temperature as that at which the fever develops itself.

The European police are now using the microphone to detect the ticking of infernal machines in luggage, without having the trouble of opening it.

We are so fond here of imitating everything that comes from France or the United States, that we submit the following news from Paris as a valuable hint for the next big ball, Bachelors' or otherwise:—

"A new fashion, imported from America, has found favour in certain Parisian drawing-rooms. As the guests arrive, in response to an invitation for a 'soiree dansante,' they are met at the door by a young lady, who gives a small bouquet to each person, and insists that the flower shall be attached to the button-hole of the gentleman or the corset of the lady. Each gentleman is then expected to seek out the lady who wears a nosegay similar in every respect to his own, and thereupon, after the customary salutations, becomes her partner for the rest of the evening. This cumpulsory coupling, when skilfully organised, favours many intrigues, promotes match-making, and affords a good opportunity for the display of spite, by bringing unsympathetic persons together.

The Perfectura and the Adjudantia are just now engaged in a very undignified squabble as to their respective right to the salvage on a miserable cask of still more miserable tallow. Dr. Plaza, Minister of Finance, has been named umpire in the matter.

Mr. John Dillon has been reappointed to the important post of Accountant-General of the Province, which he filled so well during Dr. Rocha's term of office.

The Municipal fizzle assumed an ugly phase yesterday. By order of the Consejo, the Public Credit Office of the city refused all payments, and there was the d—l to pay amongst the creditors. This kind of thing will certainly bring on the crisis in which the Consejo must inevitably go to the wall, and that for good.

We understand that an extra train is about to be put on from the Central Station for La Plata, composed entirely of first-class carriages. The train will leave at 11 a.m., or thereabouts.

The Lord Mayor has had an Electric Light put up in the Plaza, to enable the night workmen to see better. The paving stones that are now being laid on the site of the Recova have come from old England.

If Mr. Casado thinks proper to send his petition to Congress down here for signature, we believe he will get the whole commercial body to sign it. It asks for a 7 per cent guarantee on his railway to Candelaria and Venado Tuerto, and is one of the most essential lines in that part of the country.

Messrs. Honoré & Bowens' important railway contract was brought up yesterday before the Provincial Senate, but as the project is at present under consideration by the Deputies, it was decided to stand on same until the Deputies sent it up to the Senate. The long delays about this all important business are much to be regretted, as but for so much time lost, the works might ere this be commenced, and the immense public interested in the construction of the line to Trenquelauquen, watch with keen anxiety the progress of so important a measure, and hope to see it at once despatched.

The new colony on the Rio Negro, started by the Government at the Rincon Linares, is to be called the "Teniente General Eustaguio Frias" colony. We protest against such a monstrously long name for a colony. It positively beats in length some of the Welsh country postal towns. Why not call it colony Linares, or Fitzroy colony; some of the latter's descendants are near neighbours there; Marica, the Indian Princess on the Rio Negro, is known to be a daughter of Fitzroy.

The 'remate' held on Thursday evening at the Bodega by the Turf Agency gave the following results. For the first race the Premio San Martin, Pegasus fetched the highest price, showing that he is a hot favorite. In the second race, the Premio Competencia, the rumors that Nana will not start make Terminacion first favourite with heavy odds on him. In the race, Premio Belgrano, Dichosa kept far ahead of all her competitors and fetched the highest price, Rosie and Semiramis being the next two favourites. In the fourth race Clementina and Smirna divided the public favor. In the fifth race Sam Weller kept the lead and fetched the best prices. In the sixth and last race all the money was on Gladiador. The remate will continue to-night at the Bodega at the usual hour, and will no doubt be well attended.

Dear Sirs,

I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.

After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

Yours truly

WE BELIEVE THE CAUSE OF THE wonderful success of our Murray & Lanman's, Florida Water may be found in the fact that the principal aim in its preparation has always been to give the simple natural perfume of flours, without any chemical addition whatever, and to avoid, by all means, the great error of making a heavy sickly, sweet perfume.

ON 'CHANGE.

May 16th, 1884

Cedulas E	89⅞
National Bank Shares	150
Nat. Bank Certificados	62
National Bonds 1882	82

A cold blast of the East-wind swept over the market this morning, and the chill sent a shower through the share bulls; the downward tendency of the National Bank Share speculation continued, and the weak feeling was even more pronounced than yesterday. Outsiders who, speculating on a rise, bought the day before yesterday at 153 and 154 looked glum to-day as the stock fell with the temperature of the Bolsa. There is a stand-from-under feeling all round the ring, but it is generally opined that the heavy bulls will keep the stock firm about 150; if the large operators bear the market the end of the month will become a critical business.

Three hundred shares changed hands for cash at 151 and 150. Three thousand were sold for the end of the month; the market opened at 151½, last night's closing rate, but the stock fell rapidly after having touched 151¾ to 149; a slight reaction set in and the market closed somewhat firmer at 149½. The main features of the situation are bearish. One hundred shares were sold for the end of next month at 152½.

The Scrip rules steady at 62 for cash and for the end of the month. Five hundred Certificates were sold at this rate—the bulk for cash.

The snag-up in the Cedula market continues; 51,000 Series E were sold cash at 89⅞; nothing else done. A few thousand National Bonds of 1882 were sold cash at 82.

The exchange market is duller than ever, owing to the departure of the packet. The firm aspect of exchange on Montevideo is giving way already and rates are expected to rule weak soon; bank rate 2 o/o.

The land business shews symptoms of slow revival, and more activity is reported by brokers. The four leagues of land, situated in the Second Section, and sold on the 14th by Messrs. Talaferro & Sanchez, have been resold already at a profit. Mr Wolf, the well-known broker, sold to-day four leagues of land in the 8th Section at the rate of 100,000 $% per league. But the great talk of the market is Mr Alvear's mammoth purchase of 500 square leagues of land in the Province of Mendoza for 600,000$; seller Mr. M. Belaustegui. This immense estate has been offering in the market for many months, and its sale has been announced more than once. At present there remains no doubt that the territory has changed hands. These 500 leagues are between the Atuel and Diamante rivers, and comprise some of the finest lands in the province of Mendoza. Mr Diego Alvear is now the proprietor of the largest area of land in the country: Mr Alvear possesses now over 1000 leagues of land or nine thousand square miles.

Mr Goodhall, H.M.'s Vice Consul in Bahia Blanca, was welcomed to-day by many friends anxious to hear of the progress of the Liverpool of the South. Bahia Blanca is going ahead rapidly; the partido is now one of the wealthiest in the province.

Mr Manuel Riglos, the well-known auctioneer, will sell by auction to-morrow (Saturday) at 3 p.m. in Calle Bolivar 85, two leagues of land in Tapalque; the upset price has been fixed at 380,000 m/c per league. The auction takes place by order of the judge.

The Italian steamer Orione left Genoa on the 15th inst. with 720 passengers and emigrants for the Plate.

The money market rules easy; money is abundant in and out of the Bolsa. Discounts are at 6½ o/o. Government bills in demand at 7 o/o.

The following were the sales at the ring during official hours:—

Cedulas—
For cash E 51,000 at 89⅞
National Bank Shares—
For cash 300 at 151-150
For May 31st 2,900 at 151½-¾-¼-½-151-½-151 to 151½—151-150-149½-149-¼-149-½
For June 30th 100 at 152½
Sales, 3,300
National Bank Certificates, 30 o/o paid—
For cash 450 at $62
For May 31st 30 at 62
Sales, 480
National Bonds 1882—
For cash 8,000 at 82

The steamer Louisa H., from New York, is now expected with some 50 wooden houses, four hotels, and four churches—all for La Plata.

We hear of a very large exchange transaction done between the Mortgage and Provincial Banks for the last mail. The business was done without the intervention of a broker. The Mortgage Bank drew against Cedulas shipped and the Provincial Bank took the bills.

A very important business, we learn, is being arranged by cable for the placing of another large lot of National Bank Shares in Europe, hypothecated for a fixed time. The difficulty in the way of closing the transaction, we are told, is to secure the number of shares; as the commission on the business is 2 per cent, it is probable, if prices drop sufficiently, that the shares will be secured.

Wheat has been sold during the week as low as $35 $% per fanega, in the Nueve de Julio, which is indeed a very low price; but it is better for the country to see wheat selling at this price than at $180 $% per fanega, as in years gone by.

Sheepskins down in Europe ½d. and up here a real. Holders this morning got a real higher for skins than yesterday. Wool is also down desperately in Europe and up here. A fine lot lying in barraca for some time was offered for by three parties to-day; 92 was the price refused when sent to deposit, and 86 is refused to-day.

One of the best concessions ever offered in this market, and which has been lost to it now was the Casado Railway, with gift of lands and privileges to lay the track round Rosario and along the river front. It speaks for the utter want of go in the men in this market, that a business of such importance should fall through here. It is now out of their reach; the business would have left a certain profit of two millions pats. The Santa Fe Government now helps Mr Casado, and the Nat. Government is also pledged to support him before Congress to get his 7 per cent guarantee; he well deserves every support, and we congratulate him that he has not sold his concession.

We have received from London full particulars of the successful launching of the Montevidean port scheme which we will publish to-morrow; two engineers are now on their way out to begin the work which the Company has 6 years to complete. The letters from London by the French mail are most satisfactory, Argentine credit was never better, and the country is beginning to attract great notice in what our London correspondent terms, clerical circles.

The advices from London by the mail about Argentine credit, could not be more favorable, and perhaps few parties on the Bolsa are at all aware of the money which is now made in London in Argentine Stocks. As an instance of what is going on we may state that the Rosario and Campana preferred £10 shares on which so far but £2 paid are selling in London at £3 being 50 per cent premium on the amount paid up, and the ordinary shares are now selling at 67, being a rise of 27 on each share since the concession was granted.

Messrs Bullrich & Co. sold yesterday the properties Calle Chacabuco 80-94 for 1,825,000 m/c, and Calle Alsina 231-235 for 76,500 m/c. Both properties belonging to the Peña testamentaria.

The Dante has loaded one thousand tons of wheat in San Lorenzo, on the Parana.

A property of four leagues of land in Santa Fe, in a place called Las Saladas, has been sold for 37,000 $; seller Mr Baraldo; buyer Mr N Eduardo.

Telegrams from New York, received to-day, announce a panic in Wall-Street and numerous failures.

We see by advices from London that the shares of the Buenos Aires Gas Company are steadily rising; a rumor, it is reported got current that this Company would be amalgamated with the old Gas Company of this city.

Messrs Green & Johnson, the leading shipbrokers, have chartered the Italian barque Biaggino to load at Gualeguay, Channel for orders at 22s.

There has been a somewhat better feeling in the wool market this week; there has been more demand for the article and a brisk business has been carried on in the sale of wools in deposit.

25 rls. were offered and refused this morning for a good lot of long-wool camp sheepskins of last season. Matadero skins are selling at 17 to 21 rls. m/c.

About five thousand National Bank Shares were sold during afterhours. There was a panic in the liquidation parlor as the stock tumbled from 149 to 146½; violent fluctuations set in at 147½; but the market closed weak at 147 for the end of the month. The day before yesterday operators talked of carrying the stock for 160; this evening all looked very glum and prognosticated 140. Such is the turn in the wheel of fortune. The bears are omnipotent for the moment and it is quite evident now that the heavy men are bearing the stock. The scrip looked weak also and one party offered to sell at 58, but nobody would buy even at this low price. No change to report in Cedulas.

From the Plaza Once we have the following 56 waggons with produce arrived.

The Municipal Committee, appointed to liquidate the floating debt of the Corporation, has at last shewn some signs of life, and shareholders of the Old Gas Company will be glad to hear that their claims have at last come to the front. The Committee has studied the question and has finally decided to submit the whole affair to the Municipal Board, in view of the very large amount of the debt and of the limited sphere of action given to the members of the Committee. The Company has run up an account for no less than 15,626,797 $% for gas consumed up to December 31st, 1879. The Municipal accountant forwarded to the Committee the statement of accounts drawn up by Mr. Perez del Cerro, and other documents of which the Committee had little or no knowledge. According to Mr. Del Cerro's account the debt stood at 8,692,660 $% on the 26th Feb., 1875. Now the question arises whether the Committee should act on this basis of 1875 or on the proposal made by the Finance Committee in Dec., 1879? Furthermore the members of the Committee wish to know the rate of interest payable on the debt, and if the Company has the privilege of capitalizing interests—all these questions must be answered by the Board. At all events the question is coming to the front and this is satisfactory.

Nine millions currency, or 372,000$74, were handed to the proprietors of the late Recova building and site yesterday. The order was on the National Bank and Mr. Uribellarea, one of the owners, collected the amount. Had the Recova been sold at auction it would have fetched at least 30 o/o more than the amount paid for the expropriation of ground and edifice. Many other sites and buildings round the Plaza are also doomed, and before long all the sites of the Plaza will be Government property—the new Bolsa may yet be expropriated for some public building.

The Argentine Lloyd have requested authorization from the Government to build a mole in Corrientes for the special use of the steamers of the Company; let it be granted by all means.

Ten thousand bales of wool were exported in the first fortnight of this month. There remain about 20 to 30,000 bales for export yet.

The shares of the joint-stock sugar mill started at Simoca, Tucuman, and called 'Cordova del Tucuman' have been sold in Cordova at 30 o/o prem., which is a fine figure for that stock.

The Custom House receipts hold their own against everything, and with the receipts of to-day may be marked at one million National dollars, which for half a month shows how the country is marching on.

A farmer in from Arrecifes tells us that there is still much wool outside in his neighbourhood which is really astonishing as we had thought all the wool from there had already come in; the lambing season is so good that next shearing there will be a fresh squeeze to find land for all the sheep. The flocks sent out from his district to Venado Tuerto have done so well that this year hundreds of flocks will be sent out to those camps after shearing.

In a private letter received to-day from London, a city friend says:—"You omitted to answer one question I asked you as to whether the Arg. Government thought seriously about expropriating the Cent. Argentine Railway. I don't think they will carry into effect such a measure. It would do no end of harm to the credit of the Argentine Republic here—now it is A 1. Only the other day an Argentine surplus of a loan negotiated by some French people for about 1,700,000 was covered more than five times, that is upwards of 8 millions applied for at 84½ and for a 5 o/o interest, which is unprecedented. I send you Knight's circular. What is Mr. Longworthy doing with his Gran Chaco colony?"

Messrs. Green & Johnson, the well-known shipbrokers, give the following in their important shipping circular of the fortnight:—

Exports from 30th April to 15th May, 1884:—
21,187 salted ox and cow hides
6,728 salted horse hides

General Remarks—

Steamers—

Rates have now declined to 10 francs for bales per cubic metre for regular liners to Antwerp, Havre and Dunkirk, while outsiders are taking fs.9. Very little cargo offering and a large amount of disposable tonnage in port and to arrive.

Sailing Vessels—

Nothing doing with the exception of some charters for salted hides and tallow.

Messrs Lavalle & Moores, in their important cattle circular, dated 1st to 30th April, 1884, give the following:—

Charles' English Hotel

BOA-VISTA

TIJUCA

Rio de Janeiro.

WHYTE'S HOTEL, Tijuca, having been leased to M. Lafourcade of the Hotel dos Estrangeiros, Rio de Janeiro, the late manager (gerente) of Whyte's Hotel, Mrs. Charles, has with her husband taken the former "Hotel Victoria," Boa-Vista, and will re-open it on the 15th January 1884 as CHARLES' ENGLISH HOTEL.

It is situated close to the Green or Square called "Boa-Vista" on the very summit of the pass leading from Rio to Whyte's Hotel. It is a most salubrious position in the midst of beautiful mountain and forest scenery, has a bath with a plentiful water supply, very extensive grounds and is within five minutes walk of the fine waterfall Cascatinha in the forest of Tijuca.

Diligences to and from the termination of the Tramway (bond) pass the entrance to the Hotel twenty times a day.

It will be Mr and Mrs Charles' endeavour to give satisfaction to all who may honour them with their custom.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazas.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

A Derangement of the Liver.

THE CAUSE OF DISEASE

IN THE

STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distenzion of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill

(SUGAR COATED)

One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.

For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.

CAUTION—To secure the genuine Haydock's Pills, observe that the signature of J. H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.

As Dr. Haydock's Liver Pills are entirely different from the 212 kinds now in the market any skeptic can have a sample bottle sent him free on receipt of his name and address.

EDITOR'S TABLE

(Continued from 1st page)

The Industrial Club started, at its meeting on Thursday night, a Society for the Protection of Vagrant Children. One hundred members of the Club have joined it, and the subscription is only one nat. per month. We wish this praiseworthy, philanthropic effort all the success it deserves.

Ex-Governor Rocha was elected to Congress on Thursday, by the Buenos Ayres Legislature, by a sweeping majority.

The public are likely to be more pleased than otherwise at the decree issued yesterday suppressing the parade of troops at the reception of foreign Ministers. This is a very proper step. This is a republic, and there is far too much of the military element put forward on every possible occasion. A second decree settles the uniforms to be worn by Argentine Ministers abroad, and they are certainly gorgeous enough to dazzle even the Czar of all the Russias, and most unrepublican. Envoys Extraordinary will wear the uniform of a General of Division, without epaulettes; Ministers Resident, that of a General of Brigade; Chargè d'Affaires, of Colonel; First Secretary, Lieutenant-Colonel; Second Secretary, Major; and so on.

One of the bad effects of the recent rumpus raised by the City Fathers is that the question of the status of foreigners in the country has again been raised, and is being discussed with much warmth by some of our colleagues, one of whom wants to submit foreigners to military service after a certain number of years' residence in the country. This patriotic suggestion, if Argentine statesmen were so short-sighted as to adopt it, would be a fatal blow to immigration, and consequently to the country's progress. The aversion to the conscription on the Continent of Europe is one of the main causes of emigration. This country is the most liberal to foreigners of any on the globe, and, if it wants to go ahead, its best policy is to remain so. In case of need, the foreigners in the country would be quite ready to fight for it without any compulsion.

There is now an appearance of some harmony in the relations between the "Consejo deliberante" and the "Intendencia." The President of the former body has ordered his officers to receive all orders, notices, etc., from the Lord Mayor, giving the usual receipt. However, to balance this, Don Felix Rivas, under-secretary to the Council, has been named secretary to the committee engaged in promulgating charges against the Lord Mayor. It seems as if they were courting fate.

The hands on board the Republica and La Plata national war vessels are only now being paid for the years '79 and '80. We understand that no interest has been asked for, as the creditors appreciate fully the truth of the old saw, "better late than never."

Whilst a man on a ladder was painting the front of a house yesterday, his support gave way accidentally, and he was taken up fearfully bruised. There was no other sufferer by the accident.

The Government, by advice of the Department of Engineers, has rescinded a contract entered into with Messrs. Rodriguez & Co. for the construction and fitting up of a mole in Rosario, also a branch railway line from the deposits to the Central Argentine Station. The above firm has been notified to name an arbitrator to assess the value of the materials already collected and the actual loss caused by the revocation of the contract.

The Chief of the Tierras and Colonias Office has been ordered by the Minister of the Interior to forward all immigrants from the railway stations to their respective destinations, at the national expense, and lodge and maintain them for eight days. Of course, this only applies to immigrants proceeding to the national colonies.

The works in the Plaza are proceeding at a marvellous rate and will be finished to a certainty before the 25th. On Thursday and last night Mr. Cassells had four electric posts blazing away and making the place look like day; he has orders to put up a gigantic pillar in the very centre of the Plaza, to illuminate it on the great National anniversary. The tram rails in Plaza Mayo have all been taken up and are being relaid in symmetrical lines according to the plan published several months ago. Yesterday, the site of the gone Recova was half covered with beautiful English paving stones, one glance at which is sufficient to show their superiority over the clumsily-cut article from Banda Oriental. But *Wood* must eventually be the paving for our great Plaza.

We hear that Father Largo M Leahy will shortly leave for a sojourn in Mendoza, to restore his health, which has been very delicate for some time past. We hope the trip will set him all right again.

"I know we are somewhat poor, my dear," argued the husband. "But then you must bear in mind that it isn't wealth that always brings happiness." "But it brings sealskin sacques, and diamonds, and silk dresses," responded the wife.

THE Forty Hours Devotion, or adoration of the Most Holy Sacrament will commence in Holy Cross Passionist Chapel, Calle Caridad, on Monday 19th inst., with Solemn High Mass at 8 a.m., and will close on Wednesday with Solemn High Mass of Reposition at 11 a.m. On Tuesday morning the Masses will be celebrated at 7, 8 and 9. Confessions will be heard on Monday, Tuesday and Wednesday mornings from 6 o'clock till half past eleven, and on Monday and Tuesday p.m. from half past two till six. It is hoped that all the English speaking Catholics who may be in the city during those three days will avail themselves of the opportunity thus offered of showing their faith and gratitude concerning this great mystery of their religion.

Until further notice the hour for the last Mass on week days in Passionist Chapel is 8 o'clock.

78—ALSINA—78

Remataremos con la base de 2 ps. m/n oro la hectarea, por orden terminante de su dueño y condiciones que se estidulan mas abajo.

Cuatro leguas mas de 1519 cuadras cuadradas, de otra dividida en lotes de media legua, con opcion a otro lote o a toda. Estos campos estan situados a 80 leguas al Oeste proximamente de Buenos Aires y sobre la linea del gran ferro carril del Pacifico, cuyos rieles llegan ya cerca de Junin; lindan con los renombrados campos del Fortin Gainza, de los Sres. Salas y Cernadas, de los cuales estos Sres. han vendido una fraccion al precio de 10,000$ la legua cuadrada.

Los campos que venderemos quedan a 9 leguas del Fortin Gainza Posta de la galera, teniendo por lindero al Sr Don Jose Olivo, que tiene su campo poblado con 3,000 vacas, y ademas con los Sres. Oostendorp, Cesario, Runsiman, Grueben, Llorenti y otros.

Fue mensurado judicialmente el año 1877, vuelta a medir el año pasado, mojonandose entonces con mojones de fierro por el agrimensor Sr. Rodriguez.

Las tierras son ricas en negra vejetal y muy abundantes en pastos, siendo estos mezclados.

El agua se encuentra gradualmente a 2 o 3 metros de profundidad y existen alli jagueles de rica agua. Las condiciones para el pago son comodisimas, pues reconociendo cada legua 78,000 m/c uno, dos y tres años de plazo, con el interes anual del 7 o/o, el comprador sólo entregara al contado la diferencia entre el precio de compra y el valor de las letras. Queremos aqui recordar a los interesados los campos del Loreto y Venado Tuerto, que hacen apenas 2 años que eran desiertos y hoy puede decirse que son Colonias; tal es el aumento de pobladores que han ide a establecerse alli.

Estos campos que ofrecemos hoy, sino en mejores condiciones, cuando menos en iguales; aquellos valen hoy 12 a 16,000 pesos fuertes la legua, estos los ofrecemos por una tercera parte.

Titulos garantidos.

Los pastos son dulces, muy abundantes en gramilla y porotillos, con aguadas permanentes.

Estos campos son conocidos como muy especiales por su situacion alto y la calidad de sus tierras y son la continuacion de los renombrados campos de Loreto.

Están en comunicacion rápida con el Rosario y quedará sobre la prolongacion del ferro carril Oeste Santafecino de "La Candelaria" á la Colonia "Carlota". Todas las tierras en aquella zona estan situadas á la formacion de grandes colonias que como se sabe son las riquezas de la Provincia de Santa Fé.

La base para la venta es 8000 ps. m/n. que es muy baja, pues hace dos años que los campos del Loreto se vendieron aproximadamente á ese precio, estando protestada su venta endebidamente sinó se habria obtenido mas de aquel precio.

KEATING'S POWDER.
KILLS BUGS,
FLEAS,
MOTHS,
BEETLES,

THIS POWDER is quite HARMLESS to ANIMAL LIFE, but is unrivalled in destroying FLEAS, BUGS, COCKROACHES, BEETLES, MOTHS IN FURS, and every other species of insect. Sportsmen will find this invaluable for destroying fleas in their dogs, as also ladies for their pet dogs.

THIS ARTICLE has found so GREAT a SALE that it has tempted others to vend a so-called article in imitation. The PUBLIC are CAUTIONED that the tins of the genuine powder bear the autograph of THOMAS KEATING. Sold in tins only.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen aflijir a las Mugeres al llegar estas a la edad critica.

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviena mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguente Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Uguento de Holloway' falsificadas para que se sirvan al comunicarme los pormenores, e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.
